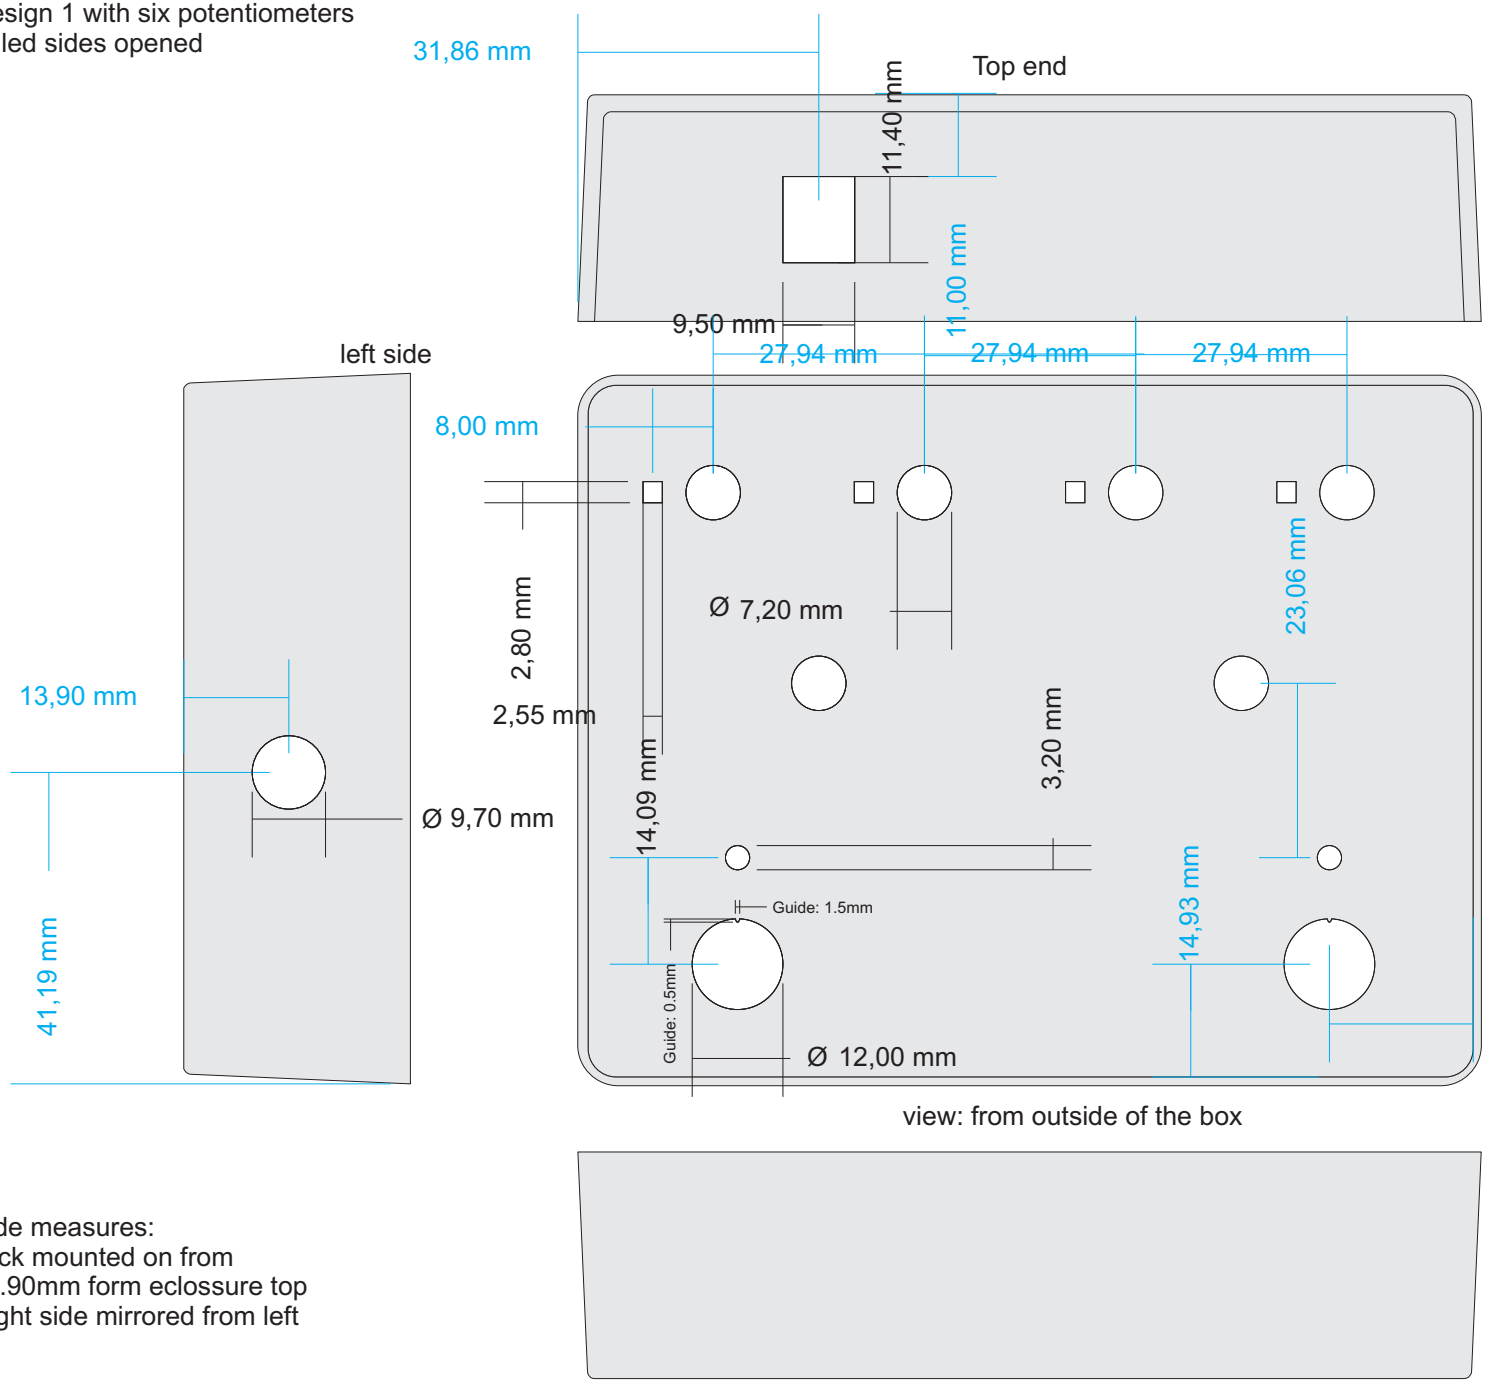
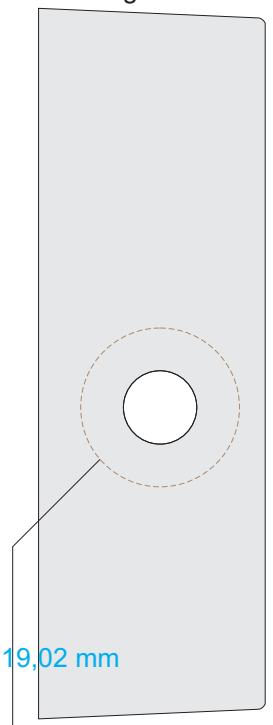
Design 1 with six potentiometers
Dilled sides opened





End for DC jack positioning
Vertical: from enclosure top approx. 11mm
Horizontal: in middle of two potentiometer holes on top surface.

Footswitch postition (19,02mmd 14.93) is measured from enclosure top edge

Side measures:
Jack mounted on from
13.90mm form eclossure top
Right side mirrored from left

Bottom end is unmilled

Jack mounting safety area dimensions
